

## RIGAKU-ACCC Rising Star Award

### Purpose:

- 1) The best young coordination chemist 40 years old and under will be selected from Asian countries and regions.
- 2) The RIGAKU-ACCC Rising Star Award will help activate the coordination chemistry in the Asian countries and regions.

**Prize:** 1,000 US dollars, certificate and an award lecture (ca. 30 minutes)

### Eligibility:

- 1) All coordination chemists who are 40 years old and under (when applying) in Asian countries and regions can apply or be recommended for the RIGAKUACCC Rising Star Award.
- 2) Applicants should have nationalities and research places in Asian countries and regions.

### Applications:

- 1) A CV containing contact details for the applicant
- 2) A list of publications, not including papers under review
- 3) A two-page achievement sheet of the applicant
- 4) Copies of three best papers in PDF format

All materials should be written in English. The electric files of materials 1) – 4) should be sent to Executive Secretary of ACCC (Prof. Masahiro Yamashita; [yamashita.m@gmail.com](mailto:yamashita.m@gmail.com)) with the subject line "RIGAKU-ACCC Rising Star Award application" by **September 30, 2023**.

### Selection Rules:

- 1) Representatives of International Committee Members in Asian countries and regions will select the best young coordination chemist from the Asian countries and regions.
- 2) All Asian countries and regions have only one vote for selection of the award.
